

SAT-110 ADAPTER™

THERE IS NO SUBSTITUTE FOR SPEED

powered by **SAT** Smart Acquisition Technology™

The FieldPak® Adapter offers plug-and-play compatibility with a Laptop's USB 2.0 or 1394 interface.

Compatible with industry leading editing systems, the FieldPak SAT-110 Adapter transfers media rapidly using USB 2.0 or 1394

FieldPaks are inserted as removable storage devices similar to CD-ROMs or Floppy disks

Features:

- **Automatically mounts** FieldPaks on your laptop or desktop
- **FieldPak compatible** with 20GB, 40GB, 60GB 80GB and 160GB capacities, Solid State 16GB and 32GB
- **High performance** FieldPak media transfers and playback
- **Compatible** with any laptop computer which has a USB 2.0 or 1394 interface
- **LED indicators** show drive activity and eject status
- **NLE compatible** including AVID, Apple, Adobe, XOS Technology, DVSPORT, LRS Sports and Webb Electronics
- **Data compatible** with Smart Acquisition Technology™ (SAT) - the ability to add metadata during digital acquisition or prior to the start of nonlinear editing
- **Compact and lightweight** at 10 oz.
- **Dimensions:** 4.5 x 5.5 x 2.25 inches, power provided from laptop PS2 port, USB, 6 pin 1394 or AC adapter.

Benefits:

- **Immediate access** to digital media recorded on FieldPaks
- **Instant** access to media for editing using portable laptop editors
- **Fastest way to organize** clips with attributes entered during acquisition.
- **Powered** by the laptop battery provides complete portability
- **Rugged operation** in temperatures of 32° F to 122° F, stores at -40F° to 158° F
- **Increase computer storage** with the SAT110 Adapter and rugged FieldPaks together as general-purpose, removable disks with exceptional storage capacity
- **Share, Backup and Archive** all of your video on FieldPaks for instant retrieval of assets
- **Ability to transfer** recorded media at speeds that exceed 6X real-time
- **Manage media assets** with industry standard MXF™ and ASF™ media files
